PERSONAL PROJECTS

Social Media Application (07/2024 - 07/2024)

- Developed a full-stack social media application using the MERN stack (MongoDB, Express, React, Node.js) to facilitate user interaction and content sharing.
- Implemented JWT-based authentication to ensure secure user login and session management, enhancing security and user privacy.
- Utilized React Query to manage server state, providing efficient data fetching, caching, and synchronization for a seamless user experience.
- Designed and developed RESTful API endpoints** using Express and Node.js for handling user registration, authentication, and CRUD operations for posts and comments.

Recipe Finder (04/2024 - 05/2024)

- Developed a full-stack recipe finder application using the PERN stack (PostgreSQL, Express.js, React, Node.js).
- Implemented** advanced search functionality to filter recipes by ingredients, cuisine, and dietary restrictions.
- Designed** a responsive and intuitive user interface with React, enhancing user experience across various devices.
- Managed** efficient data storage and retrieval with PostgreSQL, handling user-requested recipes.

RUCE College Website (10/2023 - 11/2023)

- Designed and developed a static website for a college, ensuring a professional and visually appealing online presence.
- Utilized** HTML, CSS, and JavaScript to create a responsive and accessible website layout compatible with various devices and browsers.
- Showcased** key information about the college, including academic programs, faculty profiles, campus facilities, and admission procedures.
- Implemented** SEO best practices to enhance the website's visibility and search engine ranking, driving more traffic to the site.

CERTIFICATES
